Workmen Discovered the Fluid Bubbling from the Earth.

MYSTERY OF AN EXCAVATION

Callons of Golden Oil Filled a Hole Made by Men Digging a Cellar at the Corner of Fourteenth and T Streets Northwest-It Startled the Laborers and Excited the Neighborhood-Character of the Find.

Where Workmen Struck Oil.

Workmen struck oil yesterday in the northwestern part of the city, but whether it is a genuine well, capable of producing floods of the Hominating fluid, or whether some practical joker has perpetuated a clever prove perplexing for several days.

ishment and surprise, and gollons of the finid were accoped up. When put into vessels and lighted, the oil barned with a clear, strong and steady white light. To the smell, it was like ordinary coal oil, but the color it was golden, quite unlike the ordinary thuish white fluid, and heavier in body. Darkness prevented a farther examination of the mystery after the well had been dug out about a foot, and the problem was given up until to day.

OCCUPIED FOR EIGHTEEN YEARS. Cook Bros., a grocery firm on Fourteenth street, next to the corner of T, are having the celiar excavated for the purpose of putting up a new building and store. They own the ground and occupied it for eigh-teen years, and John C. Cook, one of the firm, declared last night that he knew of no way how the oil could have gotten into

plously, and we found it would harn freely, and, although we took a considerable quantity out, more took its place."

The approach of darkness prevented a choser examination of the mystery and it was given up until daylight. Marshal Shea has charge of the excavation and he was equally surprised.

MAKES A SMART FIRE

The workmen had a fire burning in a part of the cellar and they soaked pieces of wood into the fire to make a smarter and hotter

blaze. It was decided to dig out the rest of the well and see if the oil would still gush forth the first thing in the merning. Att. Cook expressed his wonderment at the incident and said he knew of no possible way for the oil to have found its way into the present hading place. He said that he would have an expert examine the fain to discover the true mature of the inexplicable

Years ago a colored woman named Mrs. Years ago a colored woman named Mrs. Bell occupied the land from the corner of T street to the lot where the oil well was found, and it was sold for 7 cents a foot. Eventually it passed into the possession of the Cook Insolher Started a grocery store of the land where the well lies, and a few years ago moved into the one-story store just adjoining. One of the first things they did, said Mr. Cook hast night, was to fill up the old brick-walled well where the oil now lies. It was then partially filled, but the work was soon completed for precautionary purposes.

day afternoon is such a peculiar manner. Only one side of the cavity is exposed with its old brick wills, and about two inches of oil jested on the surface last night when Mr. Cook reached down and filled a bottle of the fluid for the reporter. Beneath the covering of oil, water to the depth of several inches was found. Many explanations of the phenomenon were put forth last night. Some expressed the opinion that a barrel of oil had somehow leaked into the old well, and had been prevented from sinking into the ground by the underlying stratum of water, while others thought it quite possible that a real oil spring had been brought to light. At any rate the discovery will be a matter of interest and speculation until the truth terest and speculation until the truth shall be known

SHATTERED BY DYNAMITE

Twenty Thousand Kilos Explode on a Vessel on the Rhine.

Eleven Persons Killed and Not a Trace of Them to Be Found-Property in Distant Villages Wrecked.

Cologne, March 20,-A terrible explosion of dynamite took place yesterday evening at Salmorth, in the district of Dusseldorf. The cargo of the ship Elizabeth, consisting of 20,000 kilos of dynamite, was being unloaded when the explosion oc curred, killing a number of people and doing a terrible amount of damage.

The exact number of persons killed is not

Another vessel, which was alongside the Elizabeth, caught fire and was burned. The explosion was felt for miles, and was at first believed to have been the result of an carthquake. Several houses collapsed killed seven persons, but says he would have been killed himself had he disobeyed the at Keeken and othervillages, and windows

were shattered within a wide area.

At Cleves, five miles from the scene of the explosion, doors were fore off and winframes were smashed

The bodies of five victims of the explosion have already been recovered, and six persons, believed to have been killed, are still

The force of the explosion was so great that three vessels at Lobith, the last Dutch village on the Rhine, were subt. It has transpired that the Elizabeth was taking the dynamic on board instead of discharging it, as was at first reported.

Two hundred and twenty tons of the explosive was taken in six boats from Lobith to Salmorth last January, en route to Antwerp, whence it was to have been shipped to Australia. Owing to the ice blockade in the river the dynamite was landed at Salmorth, where it was stored awaiting the reopening of navigation.

In the meantime the Elizabeth had been chartered to take the dynamite forward and the cargo was being stored yesterday and the cargo was being stored yesterday when part of it exploded. The cause of the explosion is unknown, as every person on board the Elizabeth was killed.

Mrs. Lillian Wise Wants a Divorce Lillian Wise says she has frequently her husband, John R. Wise, from killing her. She yesterday filed a bill asking her. She yesterday filed a bill asking for a divorce, custody of their children, \$100 attorney fee, and \$5 a week allmony while the suit continues. She also wants a restraining order to prevent Mr. Wise from interfering with her. At the close of the hearing of the case she hopes to receive, in addition to the divorce, \$200 attorney fee, \$1,000 alimony, suit money, and costs. They were married August 9, 1887, by the Rev. Dr. Corbin at the minister's house. They have two children living.

Fined for Stealing Milk.

Harry Detweiler, Charles Kleny and Edgar Totten, boys from 13 to 16 years of age, allowed their fondness for milk to overcome their fear of the law yesterday morning, and it appears that they stole a goodsized can of milk from Charles Graff, of Third and E streets northwest, and took it in an alley, where they drask the milk and threw the can away. Detweller and Kieny were fined \$1 each by Judge Miller and Totten was dismissed. The boys were arrested by Policemen Cox and Mulvey.

Burglar Scared the Household.

A negro burglar forced an entry from the rear into the home of War Department Clerk Mrs. Mary M. Craighead, No. 711 Ninth street northwest, about 10 o'clock instright. After prowling about the premises for a while and greatly alarming the immates the fellow was frightened away without having secured any plunder. Policeman Garroway made a search of the house as soon as he had been informed of the presence of the marauder.

Fainter Fletcher Had a Serious Fall. While painting the front of house No. 2508 Fourteenth street yesterday fore noon, Edgar Fletcher, eighteen years old, who lives at Thirty-sixth and L streets, fell headlong from the second story and received serious injuries about the head and back. He was removed to Garfield Hospital in the Eighth precinct patrol wagon.

He was laid on the floor of the front room down stairs, which is used as a workshop, but when his father emtered he got up and started toward him. His father caught him up in his arms and carried him to bed.

Physicians had been sent for at once, and Drs. Stoutenberg and Selfhausen reached the house a few minutes after the accident and made an examination of the injuries. There were no marks on the body, but the physicians decided that he was injured internally.

He was conscious up to the last moment and knew every one of the family in the room. Just before he breathed his last his father approached the bed and, leaning over,

"Louis, darling, do you know papa?"
"Yes, sir; I know you," replied the feeble

reputation, and has been in the employ of Mr. Beveridge for several years. He has three brothers employed by the same firm. DRIVER GAVE HIMSELF UP. When the accident occurred he stopped his wagon and went after a physician, and brought one back to the house with him.

He then told the boy's father that he would also by and see how the boy was after he had finished his delivery.

Before hegot through, however, he learned that the boy had died, so he went to No. 1 police station-house and delivered himself up to Lieut. Amiss. He was locked up to await the result of the coroner's investiga-tion, which will take place to-day. Brooks said inst night that the boy was about three feet from the wagon when he first saw him.
